SOLDIERS TAKE REST

Greeks and Turks Refrain From Bloodshed.

PREPARING FOR ANOTHER MOVE.

One Report Says That It Has Already Begun and That the Greeks Are Marching Into Turkish Territory—Turks Still Hold the Milouna Pass—Latest Relating to the Eastern Trouble.

LARISSA, April 20.—The situation on the frontier has not, according to the latest advices, been materially modified. Both the Turks and the Greeks are resting from the tremendous exertions of the three days' fighting. The troops of Edhem Pasha were half dead with fatigue and hunger when the firing slackened. Most of them flung themselves down where they stood on the bare ground to sleep. The Turkish commander-in-chief prudently decided to allow his army to rest.

As details come in it becomes more and more apparent that the fighting in Milouna Pass was of the most stubborn and savage character. The Turks fought like devils and the Greeks resisted in the spirit of their ancestors. The most inexplicable fact in connection with the whole engagement is the comparatively small number of killed. All the special correspondents agree to this. The Turks appear to have fired as wildly with their rifles at Milouna Pass as they did at Arta, where the fighting consisted of an artillery duel between the rival batteries on each side of the river, lasting about four hours in the afternoon. There they fired only one out of five shots with any effect and their batteries were soon silenced by the Greeks, whose marksmanship was much superior. The Turkish losses at Arta are believed to have been very heavy. On the Greek side there was not a man killed.

The latest advices are that the Greek troops are advancing to reoccupy their positions at Milouna and at Gritzovali, the latter of which, it is alleged, was abandoned owing to a misunderstanding by the general in command, who interpreted as an order of retreat what was really intended as an order to advance.

Captain Tagarde, who was wounded at Gritzovali, shot himself in order to avoid falling into the hands of the Turks. The Greeks report that the Turks lost 7,000 killed and wounded at Reveni, but this estimate is probably excessive.

The Greek engineers constructed a bridge at Pachyskalos to enable their troops to cross the river. It is stated that the Turkish forces attacking Reveni numbered more than 10,000 men.

REPORTS FROM ATHENS.

The Albanian Frontier Situation More Favorable For the Greeks.

ATHENS, April 20.—It is reported here that a large body of Albanians, estimated at upward of 2,000 who had crossed the Greek frontier with the avowed intention of pushing on to Larissa, has re-crossed and is now ravaging Epirus.

Colonel Manos, with 25,000 men, having crossed the Arakphos under the protection of the Greek artillery batteries, is now in Epirus, where, it is believed, his force is considerably in excess of the Turkish.

Arta is practically deserted. The mayor has transferred the public offices and official records to Konipote.

The Greeks have occupied several strategic positions around Dumasi, including Vigla.

Three thousand armed peasants have joined the troops.

It is alleged that 22,000 Turks attacked Reveni.

It is feared that a massacre has taken place at Prevesa during the bombardment.

FROM TURKISH HEADQUARTERS.

Turks Well Fortified and Holding the Milouna Pass.

EASSONA, Headquarters of the Turkish Army in Macedonia, April 20.—The Turkish forces continue to hold the Milouna pass, though it is reported that the Greeks are advancing, or making ready to advance, to reoccupy the positions from which they were dislodged on Sunday. The two blockhouses have been strongly fortified, and it would take a powerful body of Greek troops to recapture them. Edhem Pasha has entrenched himself on all the heights from Palaipavada to Meckche, and strong bodies of troops are stationed in the defiles between these two points.

The inhabitants of Elassona have left the town en masse and are pushing northward, many of them going on to Salonica. Evidently they fear that the Greeks will defeat the Turks and actually reach this place.

TURKEY BLAMES GREECE.

An Official Communication Furnished by the Government.

CONSTANTINOPLE, April 20.—An official communication to the newspapers states that the imperial government has spared no pains to preserve the peace, killed.

but that Greece, having sent troops to Crete in defiance to the wish of the powers and having begun hostilities on the frontier, has compelled Turkey to defend her integrity and to retaliate by an act of war.

The minister of war has given explicit orders to Edhem Pasha, in accordance with an imperial irade, approving the decision of the council and adopting the plan of operations formulated by the military commission. The irade throws the entire responsibility for the war upon Greece.

FIGHTING BEGUN AGAIN.

Greeks Enter Turkish Territory and the Turks Retreating.

LARISSA, April 20.—The Greeks have defeated the Turks at Reveni, and two Greek brigades have entered Turkish territory in different directions and penetrated to Damesi, northeast of Zarkos. Another division is trying to flank the Turks, who are retreating in disorder.

Heavy fighting is in progress at Gritzovali. The Greeks are trying to recapture the place.

Crown Prince Constantine has gone to Tyrnavo.

ANOTHER GREEK STEAMER SUNK.

SALONICA, April 20.—A Turkish torpedo boat has sunk the Greek steamer Athens in the Gulf of Salonica. On board were insurgents and members of various secret societies.

A general panic prevails here. All vessels are prohibited from leaving the gulf. The Turks have seized the Greek steamer Kephaleion.

BLOCKADE NOT RECOGNIZED BY UNCLE SAM.

LONDON, April 20.—The Rome correspondent of The Standard says it is stated there that Admiral Canavarro, commanding the international fleets in Cretan waters, has received notice from the American government that the United States does not recognize the existence of blockade of Crete.

GREEKS MUST QUIT CRETE.

CANEA, April 20.—Placards have been posted here, at Candia, and at other towns in the island allowing the Greeks a fortnight to quit Crete. This is regarded as a complete annulment of the proposed scheme of autonomy.

ARTA ALMOST DESERTED.

ARTA, April 20.—The mayor of Arta has distributed rifles to all male inhabitants of the town. The transfer of all public offices and official records from Arta to Konipote is now progressing. The town is almost deserted.

FLURRY IN WHEAT.

Wild Speculation Caused by the Greco-Turkish War News.

NEW YORK, April 20.—The announcement that war had been declared between Greece and Turkey set the wheat market wild yesterday. On the heels of Saturday's 4-cent rise in prices came another jump of 4 cents (May opening all the way from 83 1-4 to 83 1-4 cents, so intense was the excitement prevailing at the outset. For an hour the market was in a furor, with values fluctuating so wildly that it was next to impossible to follow their course. May reached 83 7-8 on one of its wild spurts, which proved to be the high water mark for the day.

Suddenly foreign houses, local traders, outsiders and everybody who had clamored to buy wheat at the opening turned sellers. Large profits were represented on most of the wheat thrown over, and by midday the unloading process was in full swing with prices to tobogganning down hill as fast as they had ascended. May tumbled to 80 7-8 cent before the selling movement could be checked. From this point there was a later rise to 82 8-8, followed by a setback to 81 1-4, and a subsequent rally, the close being extremely nervous.

DECIDED BY THE SUPREME COURT.

Two Important Cases of Interest to the State of Indiana.

WASHINGTON, April 20.—Two cases recently argued in the supreme court of the United States by ex-President Harrison were yesterday decided by that court, and both in favor of the contention of the ex-president. One of these cases involved the right of the city of Hammond, in the state of Indiana, to annex land belonging to Caroline M. Forsythe, which she resisted. She sought to enjoin the collection of taxes, and, after failing in the state courts, took the case to the federal courts. In these courts she also failed, and the decisions below were affirmed by yesterday's opinion.

The other case was that of the Citizens' Railway company vs. the City Railway company of Indianapolis. In this case the court decided that the charter of the Citizens' company did not expire until 1901. The contention of the perpetuity of the charter was not passed upon.

PROSTRATED BY A PECCULAR CAUSE.

PORTLAND, Ind., April 20.—William Nelson, a grocer of this city, is confined to his bed in a dangerous condition from a peculiar cause. A highly valued dog belonging to Nelson was poisoned, and Nelson undertook to save it by pouring warm lard from a bottle down its throat. The dog bit off the neck of the bottle, and a sliver of glass, with some of the poisonous saliva on it, penetrated Nelson's hand. The hand and arm have swelled to enormous proportions and may cause Nelson's death.

NEW ORLEANS STILL CONFIDENT.

Her People Think the Levees Will Stand the Flood.

NEW ORLEANS, April 20.—The river has attained the 19-foot stage. There are now several hundred additional laborers engaged in strengthening the embankments and all necessary vigilance is being exercised by the local authorities. At the Carrollton section of the parish levees, the greatest activity prevails, considerable inconvenience continues in the handling of merchandise to both boat and railroad depots, but all is being done that is possible to reduce the emergency strain. The levees in Plaquemine parish are report-

ANOTHER CREVASSÉ.

Levee Gives Way Twenty-Eight Miles Below Natchez.

FINE PLANTATIONS INUNDATED.

All Stock and Other Perishable Property Had Been Removed and the Loss Will Not Be So Very Great—A Slight Improvement in the Mississippi Delta. Relief Work Carried On.

NATCHEZ, MISS., APRIL 20.—

The first break on the Concordia parish front occurred on Sunday morning last when the Glasscock levee gave way. This levee is located about 28 miles below Natchez and is near the lower end of the levee system of the parish. It is an old levee and has received no attention since 1891. There was a large force of men at work on it Sunday morning raising and strengthening it. They were working their way to the lower end of it when suddenly the laborers saw the muddy water begin to bubble up at the lower end and in less time than it takes to tell it, the seething water tore a great hole through it.

After the break started it was impossible to stop it and work on the embankment was at once stopped. The water rushed through at a great rate and began spreading out in the lowlands adjacent. The catastrophe was not unexpected and its disastrous effects were in a measure discounted by reason of all the stock and other perishable property having been removed.

The water from this break will inundate the lower part of the parish from Moorville down to Brabston, covering a number of fine plantations, but it was expected that most of this section would go under anyhow from the overflow that will take place in Black river from the Biggs crevassé below Delta. It will entail a vast amount of suffering of the people of the neighborhood and relief will have to be extended to them. This levee was 12 feet in height, and when the crevassé occurred the water on the front was between 10 and 11 feet high against it and four feet on the back, while the fall of the water running through it is from six to seven feet. The break is near the old Bongere crevassé, through which the river has been running, and the waters of the two will mingle.

Captain Derby, the United States engineer in charge of this district, and Assistant Engineer Hardy have gone down to the break, carrying 50 men with them for the purpose of trying to "tie" the ends of the break. The crevassé is reported to be from 800 to 1,000 feet wide and still caving.

The river at Natchez has fallen 20-100ths in the past 48 hours, but again shows a rising tendency. This city is fast filling up with flood refugees and every effort will be made to care for them. Stock of all kinds continues to pour in by the steamboat load.

All the other levees in this vicinity are in good shape.

LAND FAST DISAPPEARING.

The Situation at Biggs' Crevassé Is Growing Worse.

MEMPHIS, April 20.—The situation at Biggs, where the water is rushing through the crevassé in torrents, is growing worse. Madison parish is fast becoming inundated and the water will extend to other parishes, destroying thousands of acres of newly planted crops. Vicksburg, Natchez and other river points are crowded with refugees and everything possible is being done to alleviate the suffering of the poorer classes.

Calls for aid have been sent out from sections of the overflowed Mississippi delta, and while the waters are slowly receding, the suffering and destitution increases. The situation throughout the delta is about the same. The planters hope that the waters will be carried away in time to make a good crop.

A break has occurred in the Reid levee, one and a half miles below the Biggs break. The break is 100 feet wide, but not widening fast, as the water behind the levee from the Biggs break prevented it going through with any great velocity.

At Memphis the river is slowly falling and at Cairo a decided fall is reported.

The Memphis relief committee has issued the following:

"The executive committee of the flood sufferers relief committee of Memphis after returning thanks to a general public at home and abroad for liberal contributions, beg to state that owing to the action of the general government, the calls on the Memphis relief committee have been so reduced that, in the judgement of the executive committee, the funds now in hand will, in all probability, be sufficient for the demands and that contributions to the Memphis relief committee should cease. If any future emergency should arise, the public will be advised."

NEW ORLEANS STILL CONFIDENT.

Her People Think the Levees Will Stand the Flood.

NEW ORLEANS, April 20.—The river

has attained the 19-foot stage. There

are now several hundred additional

laborers engaged in strengthening the

embankments and all necessary

vigilance is being exercised by the

local authorities. At the Carrollton

section of the parish levees, the greatest

activity prevails, considerable inconven-

ience continues in the handling of mer-

chandise to both boat and railroad depo-

ts, but all is being done that is possible

to reduce the emergency strain. The

levees in Plaquemine parish are report-

ed as standing the pressure excellent.

On the right bank of the river, the

levees are patrolled night and day and

fascine work is being executed all along

the line. The levees are also being

raised. All of the railroads entering

the city are assisting in the work of

protection.

It can be reiterated again that while the local situation is certainly productive of some apprehension, there is really nothing critical about the condition. The levees during the past few weeks have stood a fearful strain, something in itself that is admirable testimony as to their stability, and with extra precautions now being taken there is little foundation for an impression that a break will occur. Public sentiment clearly approves of the actions of the officials in charge of the levees in this city.

FIGHTING IN CUBA.

This Don't Look Like the Weyler's Tale of Pacification.

HAVANA, April 20.—Colonel Aldea, with the Navarro battalion and a detachment of local guerrillas, has been engaged in the woods near Jacas, province of Matanzas, with the remainder of the reunited insurgent forces, commanded by Regina Alfonso, Cervantes and Benito Socorro. The troops captured the insurgent camp, killed 11 of the enemy and captured the insurgent major, Alvarez. Later the troops pursued the insurgents to the Cienaga de Zapata, where, in another engagement, the insurgent captains, Fernando Sambra and Julian Sambra, Sergeant Chavez and Lieutenant Colonel Socorro were killed and several others were dead, and are believed to have died since died.

In a skirmish between the Maria Cristina battalion and an insurgent force commanded by Aguilera, the latter was killed with six of his men.

The Viscaya battalion at Veguitas, near Trinidad, province of Santa Clara, has had a skirmish with the scouts of Quintin Banderas's force.

The Zerona battalion, the Yerba squadron, reconnoitering at Oleaga, have killed 23 insurgents, captured a quantity of arms and destroyed 72 huts. The column had one man killed and five wounded.

In numerous small skirmishes recently the insurgents lost 41 killed and 10 prisoners, and the troops lost two men killed and 12 wounded.

Messrs. Cornelius Mall, Heron and Evan Evaros, American citizens, who have been imprisoned on the charge of disorderly conduct, have been placed at the disposal of Consul General Lee.

There have been 621 deaths from smallpox at Guines from April 1 to April 15.

A demonstration has been held at Santa Clara, capital of the province of that name, to celebrate the pacification of that part of the country and to do honor to Captain General Weyler. The mayor and aldermen presided over the demonstration. There was a large meeting of the inhabitants in front of General Weyler's residence. The latter, through his adjutant, returned thanks for the ovation which he received, though deprecating such demonstrations in his honor.

The wife and daughter of Mr. Hyatt, the American vice consul at Santiago de Cuba, have been attacked by yellow fever.

Thomas Dawley, the American artist, who was arrested at the trocha in June last, and imprisoned at Havana, on a charge of being in communication with the insurgents, has sailed for New York by the Ward line steamer.

carried the place by 800. Somewhat of a
change, there.

GOVERNOR BRADLEY ran over to Cin-
cinnati Saturday night "to have his throat
treated." He probably yelled so long
when that indictment against Hunter
was reported that his throat no doubt
needed attention.

This is pretty good. Republicans now
refer to "reductions" of wages as "read-
justments" of wages. It sounds less harsh,
of course, but workingmen cannot be de-
ceived thereby. And there's a good deal
of this sort of "readjustment" going on.
For instance, the Mahoning Valley Iron
Company on the first of April reduced
wages of its employes who are not mem-
bers of the Amalgamated Association
from 8 to 12 per cent. The Republicans
should hurry up and get that Dingley bill
in operation. The people want to see
how it will work.

SONE one thinks there's trouble ahead
in the U. S. Senate for the Dingley tariff
bill because an amendment has been
offered that declares all trusts illegal and
void, and authorizes the President to sus-
pend by executive order the collection of
all duties levied upon any imported arti-
cle, the home product of which is con-
trolled by a trust. The Republicans of the
House rejected by a unanimous vote an
amendment of this kind, the Democrats
and Populists voting for it. It remains
to see how the Republicans of the Sen-
ate will vote.

THE Public Ledger says the Dingley
bill has been "highly commended from
various sections," and the Ledger might
truthfully have added that it has been
bitterly denounced from "many sec-
tions." Here's an instance: Blumenthal
& Co., importers and manufacturers of
buttons, furnish a New York paper with
an invoice just received on a shipment of
buttons and an analysis of it under the
Wilson law and the Dingley bill. It was as
follows:

Five cases contain metal buttons, 18 to
24 line. Value marks 2,452 at .23 8-10,
equals \$589.52.

Total duty.
Wilson bill, 35 per cent. ad val-
orem..... \$ 206 33

Dingley bill, 3c. a line, per gross,
and 15 per cent. ad valorem... 3,652 43

In other words, Mr. Blumenthal said,
the proposed rate of duty in the Dingley
bill would equal 619 per cent. on the value
of the goods. We are in favor of protec-
tion to a certain extent, but when they
put it on so high they just kill it. That
invoice will be entered at the custom-
house within four or five days. It is im-
possible to tell yet whether we shall have
to pay the duty under the Dingley rate,
but it shows what will happen if the bill
becomes a law with schedule N, para-
graph 404, as it stands. We believe that
on pearl buttons, which are made by hand,
a certain specific duty is necessary, but
on metal buttons it is entirely unneces-
sary, as those goods have been made here
for years, and there is very little hand la-
bor connected with them.

"This absurd rate of duty," says the
Courier-Journal, "shows with what fair-
ness and knowledge the bill has been
prepared. It is on a par with the provi-
sion which puts naphthazarin black, a pro-
prietary coal tar dye, manufactured ex-
clusively by one German firm, on the free
list, while similar dyes are subjected
to heavy duties, thus giving a practical
monopoly of the market to one firm and
raising no revenue."

A VANCEBURG TIP

That Touts Ex-Congressman Thomas as the
Winner.

[The Times Star.]

VANCEBURG, Ky., April 19.—The Times-
Star correspondent has received a tip
from a reliable authority that the Sena-
torial question will be settled at Frank-
fort next week through the election of
ex-Congressman Thomas of this city, and it
may occur this week. Although the
"knowing ones" claim he is not a candi-
date, the Times-Star correspondent knows
it to be an absolute fact that Mr. Thomas
expects to be the next U. S. Senator from
Kentucky.

Judge Thomas has spent a great deal
of time at Frankfort since the Legislature
convened, professedly in the interest of
Dr. Hunter. Nevertheless it has been
common talk on the streets of Vanceburg
for some time that he was all along pulling
the wires in the interest of himself.

Two Bills Signed.

Gov. Bradley signed, Saturday, the first
two bills that have reached him since the
extra session of the Legislature was con-
vened. One is the bill to protect public
speakers, and imposing a penalty for
throwing eggs at said speakers. The
author of the bill is Representative W. H.
Morgan, of Washington County, who has
the honor of getting the first bill through
and having it become a law. The second
bill was the one authorizing Coroners of
cities of the first class, which applies on'y
to Louisville, to employ a stenographer
at a salary of \$600 a year.

Something to Know.

It may be worth something to know
that the very best medicine for restoring
the tired-out nervous system to a healthy
vigor is Electric Bitters. This medicine
is purely vegetable, acts by giving tone to
the nerve centers in the stomach, gently
stimulates the liver and kidneys and aids
these organs in throwing off impurities in
the blood. Electric Bitters improves the
appetite, aids digestion, and is pronounced
by those who have tried it as the very
best blood purifier and nerve tonic. Try
it. Sold for 50c. or \$1 per bottle at J. J.

SECRETARY WILSON, of the Agricultural
Department, is going to try a new method
of fighting hog cholera. Hog cholera cost
the people of Iowa \$15,000,000 last year,
and other States suffered severely. In a
short time three parties will be sent out
by the department—one to the North,
one to the West and one to the South.
Each will choose a locality where the
disease is breaking out, and proceed in
this heroic fashion: Buy up the hogs in
the affected districts, kill them and pro-
ceed to burn their carcasses, disinfect all
the premises, quarantine, then watch the
effect. If the treatment appears to check
the spread of the contagion, it will then
become simply a question of cost.

RESOLUTIONS OF RESPECT.

We the committee appointed by the Orange-
burg school to draft resolutions of respect to
earth to Heaven March 29, 1897, with great sym-
pathy for the following:

WHEREAS, God in his wisdom thought best to
call from this earth our beloved and esteemed
schoolmate, Willie Campbell, we as children of
God bow in submission to his sovereign will, believ-
ing him to be "too wise to err" and "too
good to do wrong."

Therefore Be it Resolved, That in the depart-
ture of Willie we as members of our school have lost
an affectionate friend, a faithful and studious
pupil and a bright Christian青年.

Resolved, That we are truly thankful for his
upright life, his pearly walk and conversation;
that we tender our sympathy to the bereaved
mother and father, who have lost an obedient
son, to the sorrowing sister, who has lost a loving
brother, and to all who have lost a true friend,
and we pray God to protect, guide and comfort
the family in this great sorrow and that they
may be united in Heaven.

That we the remaining pupils of
the Orangeburg school will imitate his example
as he imitated Christ, and live so we may meet as
an unborken school before Christ, our omnipotent
teacher of all.

Resolved, That a copy of these resolutions be
sent to the sorrowing family and another copy
be kept in the record of our school.

MANNEN MOVES UP.

An Ex-Maysvillian Accepts an Important Position With the Fireman's Fund Company.

[Superior, Wis., Signal, April 12.]

Frank A. Mannen, one of the best known young business men of this city, has severed his connection with the insurance firm of Fowler & Mannen and accepted the responsible position of special agent for the territory of Minnesota and North and South Dakota, for the Fireman's Fund Insurance Company of California. Mr. Mannen will leave on Wednesday for Minneapolis, which will be his headquarters, to assume the duties of his position. He will have under his direction about 150 agents and has general supervision of the company's business.

Mr. Mannen came to Superior in March, 1890, and engaged in the real estate and mortgage loan business, in which he was quite successful. In the spring of 1893, when E. C. Kennedy was elected Mayor, he appointed Mr. Mannen, one of the prominent Democrats of the city, as City Clerk. This office Mr. Mannen filled with credit until the following March, when he resigned and was appointed to the office of Member of Board of Public Works, also by Mayor Kennedy, to fill the unexpired term of William Noonan.

His tenure of office in this capacity expired last spring and he went into the insurance business, Fowler & Mannen succeeding the firm of Fowler & Russell. While here he has been prominently identified with many business interests. For four years he was a member of the Board of Directors of the Northwestern National Bank, which position he resigned last September. He was prominent in club circles, being identified with the Superior Boat Club, the Superior Rod and Gun Club, and with the Superior Cycle Club and other organizations.

Mr. Mannen's business qualifications won him the confidence of large interests and his appointment to the position of general agent of the Firemen's Fund Company is a recognition of merit. Mr. Mannen's family will remain here until some time during the summer when they will remove to Minneapolis.

THE WORTHINGTON ESTATE.

Maysville Parties Interested—Hack Worthington's Answer to the Executors' Suit.

[Covington Commonwealth.]

In the Circuit Court last Saturday afternoon Hack Worthington, by his attorney, Harvey Myers, filed his answer and counterclaim in the suit brought by the executors of the late Henry Worthington's estate. He charges that the estate is bordering on insolvency.

He says that he refrained from demanding cash for the claim of \$70,000 which he holds against his father's estate, but agreed to accept a deed to a certain piece of property in Ohio.

He says there is some \$4,000 additional interest due upon his claim which the executors have not paid; that in the past year the estate has depreciated very much in value, and is rapidly approaching insolvency, that there has recently been destroyed by fire property valued at \$20,000 which is a total loss to the estate.

He alleges that the Third National Bank of Cincinnati, O., the First National Bank of Covington, and the State National Bank of Maysville, are claiming to be creditors of the estate for large amounts, but they are not in fact direct creditors of the estate—the estate being liable to them only as surety for the Cincinnati Tobacco Company.

He asks for judgment against the estate for \$74,548.35, with interest from May 4th, 1897, and for an order of sale, and that the executors be required to pay his claim along with the others without preference as to time or amount.

The Discovery Saved His Life.

Mr. G. Caillouette, druggist, Beaverville, Ill., says: "To Dr. King's New Discovery I owe my life. Was taken with La Grippe and tried 'all the physicians for miles about, but of no avail and was given up and told I could not live. Having Dr. King's New Discovery in my store I sent for a bottle and began its use and from the first dose began to get better, and after using three bottles was up and about again. It is worth its weight in gold. We won't keep store or house without it." Get a free trial at J. James Wood's drug store.

SESSION OF THE SENATE.

The Indian Appropriation Bill Passed Almost as It Came From the House.

WASHINGTON, April 20.—The senate passed the Indian appropriation bill yesterday. It is substantially the same as it passed the house, and can occasion little division save on the amendment opening the Uncompahgre Indian reservation.

Resolutions of inquiry were agreed to asking the secretary of state as to the operation of the reciprocity treaty made under the McKinley act.

Mr. Vest introduced his resolution declaring illegal the recent order of the secretary of the treasury relative to imports arriving after April 1. The senator gave notice of pressing the resolution and it may afford another test on the tariff.

The Rev. Hugh Johnson, in his opening prayer, invoked divine blessing on those nations struggling for civil and religious liberty and prayed for the speedy termination of all wars. He referred also to the suffering along the Mississippi river.

At 1:50 p.m., on motion of Mr. Davis, the senate went into executive session on the arbitration treaty, and at 2:15 adjourned as a mark of respect to Representative Milliken, deceased.

BASE BALL SEASON OPENED.

The Philadelphia Go to Boston and Defeat the Home Club.

BOSTON, April 20.—The Phillies came to Boston yesterday and played the first league game of the season, defeating the home team by one run, in an exciting finish. The visitors played better ball than they did last year, and deserved to win. About 14,500 people crowded into the cramped grounds, several hundred not being able to obtain seats. The first half of the game was a battle between Orth and Nichols. The former was practically invincible until the last inning, when the local players fell on him and almost tied the score. Nichols was hit safely in the fifth, when the Quakers were able to score twice, and again in the ninth, when they really won the game. Both pitchers were well supported generally. The following is the score:

R H E
Boston.....0 0 0 0 0 0 0 5 - 5 8 3
Philadelphia.....0 0 0 0 2 0 0 1 3 - 6 1 2

Mrs. Frank O'Burn and son Claude, of Cottageville, were guests of Mrs. O.'s sister, Mrs. Bean, Saturday.

Mr. and Mrs. Nathaniel Blythe, of the Stone-lick vicinity, entertaining a new son at their home since Saturday.

Miss Reeves, of Bradyville, Ohio, was a guest of the family of Mr. Stephen Valentine Sunday and attended church here.

Elijah Kimble and sister, Miss Lucy, of Adams County, O., spent Sunday with the Misses Otto and attended church here.

Miss Annie Ray, of Helena, returned to her home Monday after a two weeks visit to relatives at "Orchard Farm." Miss Ray made many friends while here who regret exceedingly her departure.

CINCINNATI TOBACCO MARKET.

Moderate Offerings Last Week And The Market Has Been Some Stronger.

The Cincinnati Leaf Tobacco Warehouse Company in its circular for the week has the following:

With moderate offerings the past week the market has been some stronger on nearly all grades, and sellers have accepted liberally. Old tobacco continued firm, and, while the offerings of new tobacco continue to consist of the inferior grades, buyers still bid liberally upon the old, and it looks favorable for sellers to dispose of their holding at fair prices. The shipments are not large at present, as the season between the winter and summer order always holds back receipts, and it is a good opportunity for those having tobacco in the market to make good sales.

There is considerable discussion about the quantity of good tobacco in the new crop, as the shipments up to the present time have been largely of the inferior grades, but, if our buyers in the country are not deceived, there will be a large quantity of the better grades, as several do not hesitate to say they never handled any better tobacco than they now have on hand, which we hope is a fact, as the large quantity of low grades on hand will make no scarcity of these grades in the market, and to improve our market to any extent we must have some better tobacco.

The demand for good red tips and mediums has been noticeable this week, and prices are higher and the bidding on the best grades is very active. We think we can quote an advance in the market of from 1/2¢ to 2¢ on the different grades, and a strong competition. Some of the early shipments are becoming very warm and will soon damage unless rehandled, and we wish to call the holders' attention to this fact.

We do not look for heavy sales until the first of May, and, therefore, may expect a good, strong market until that time.

WILD PARSNIPS EXTERMINATE A FAMILY.

ENGLISH, Ind., April 20.—News has been received from Mifflin of the death of William Hughes and son, and the expected death of Mrs. Hughes and another son, from eating wild parsnips, which they had mistaken for sweet anise. Since then the mother and son have died. Mr. Hughes was a nephew of ex-Sheriff James Hughes. The unfortunate people died in an excruciating agony; the father and son in four hours, and the mother and second son 48 hours later. The family consisted of these four. Mr. Hughes was about 28 years old.

ATTEMPT TO ASSASSINATE A MINISTER.

GUADALAJARA, Mexico, April 20.—There is much excitement among the Protestants of this city over a bold attempt which was made to assassinate Rev. J. C. Williams, the well known Baptist missionary. Rev. Williams was preaching in the Mission church, when an unknown Mexican entered the pulpit and made a desperate effort to stab him. The worshipers rushed to the pulpit and caught the assailant before he accomplished his purpose.

EX-BANK PRESIDENT INDICTED.

PADUCAH, Ky., April 20.—The grand jury has returned three indictments against Milton G. Cope, the defaulting ex-president of the First National bank of Paducah. The three indictments are for the forgery of three notes purported to be signed by Mayfield tobacco men, and aggregating \$13,000. Cope's whereabouts are still unknown. Negotiations are pending for settlement of the entire amount of shortage by his bondsmen.

HIS EXECUTION POSTPONED.

NEW YORK, April 20.—William Jay Koerner was to have been executed at Sing Sing prison yesterday for the murder of Rosa Rosegate, his sweetheart, last January. His counsel appealed, however, and the appeal acted as a stay of execution.

GENERAL CLAYTON RECOVERS.

ST. LOUIS, April 20.—General Powell Clayton, United States minister to Mexico, who has been ill at the Planters' hotel for some time threatened with pneumonia, is sufficiently recovered to be accommodated his purpose.

GENERAL HARRISON WILL PRESIDE.

INDIANAPOLIS, April 20.—A conference of the representatives of the Presbyterian churches of the city was held yesterday to arrange for entertaining the Presbyterian general assembly in May. General Benjamin J. Harrison will preside and present a historic gavel to the moderator. General Mount will also attend.

A BRAKEMAN'S FATE.

SEYMOUR, Ind., April 20.—Robert Long, aged 26, a switchman in the Baltimore and Ohio Southwestern yards, attempted to board a moving switch engine and fell under it. The tender and three cars passed over both legs and he sustained a scalp wound. He died five hours later.

A REPIEVE FOR GENTRY.

PHILADELPHIA, April 20.—A special dispatch to The Evening Telegraph from Harrisburg, Pa., says that James B. Gentry, the murderer of Madge Yorke, has received a reprieve from the board of pardons.

FOSTORIA, O., April 20.—Mrs. J. Zies was fatally burned at 7 o'clock yesterday morning while kindling a fire in the base burner with gasoline, mistaking it for coal oil. Her clothing was burned from her body, and she was burned from the knees up. She can not live. Mrs. Zies was alone in the house, but her cries soon brought assistance. She was 35 years old and has no children.

THE GREAT DISCOVERY.

Follows Another. Read and Keep Posted.

The advance in medical science is greater than in any other branch. The discovery of the X rays and the finding of malaria in the blood by analysis are the most recent discoveries, but not the greatest by any means. The discovery of a remedy or medicine that will instantly bring relief to almost any form of disease we think is beyond conception. A remedy that does not require hours and hours of patience and pain before relief comes has been discovered. Pooh! you say. Would you have believed a few years ago that the telephone is such a great invention as it is? Just so it is with the great discovery of Lightning Hot Drops, a remedy that stands to-day without an equal, without a parallel for the cure of all stomach and bowel troubles, caused by over-eating, Indigestion, dyspepsia. Relief comes so quickly you will be astonished, and the fact that it leaves no bad results is the beauty of it. The action of Lightning Hot Drops is marvelous, yet harmless, and you will be surprised to know how many different kinds of ailments you will find it good for, and if you once use it you will have no occasion to keep a cupboard full of different kinds of bottles, for Lightning Hot Drops will do the work of plasters, pills, ointments, tonics, etc., and save you lots of money, for its costs only 25¢, and the 50¢ size holds 2½ times as much as the 25¢ size, and it is sold with the positive understanding that if it gives no relief your druggist will give your money back.
